Best Rates

Call Center Termination

We commit to the required capacity to manage the high Calls per Second (CPS) rates and short Average Call Duration (ACD) rates typical of Contact Center traffic.

- *Dedicated Routing - with low ACD and high CPS rates.*
- *High Capacity - dedicated bandwidth for a large volume of CC traffic.*
- *Flexibility - not mixing regular CLI traffic with all CC traffic.*

Retail Termination

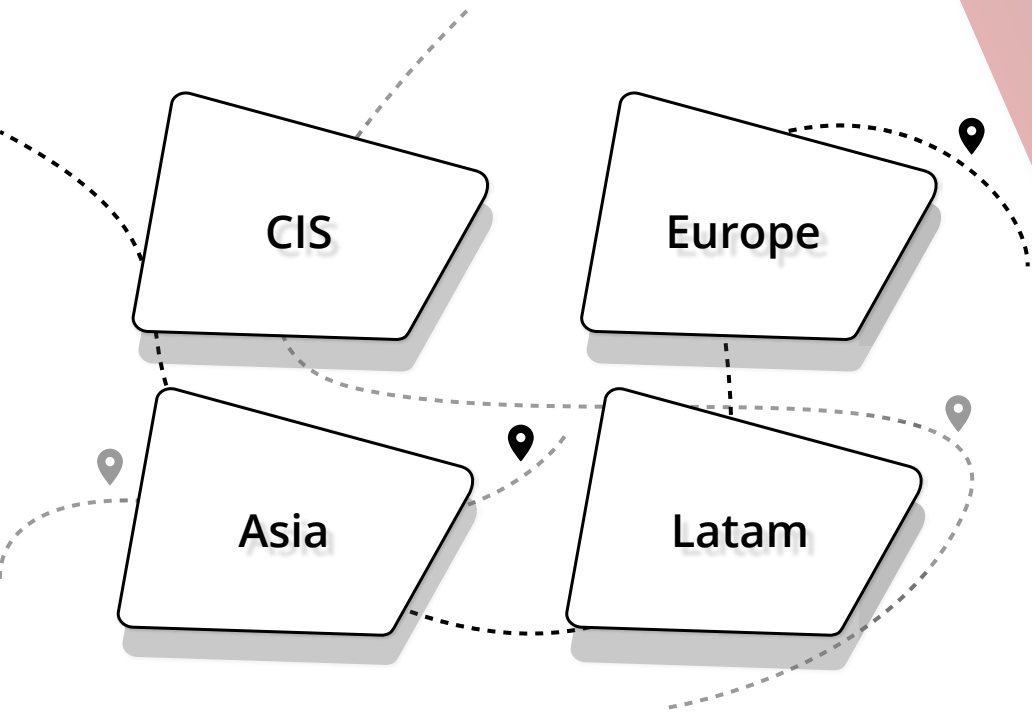

We understand how important it is to provide the correct Caller ID to the person being called. We follow a flexible approach and never skimp on quality.

The advantages for your business:

- *Stable and reliable secure routes - plus backup routes for each destination*
- *Best price-to-performance ratio - without compromising quality*
- *First-class quality - New tools, close monitoring, and proper planning*
- *EEA traffic Termination - Competitive prices with no surcharges, for European traffic*
